## Fluoride Varnish and Dental XRay Consent

I understand that fluoride varnish helps protect teeth from cavities. Fluoride varnish may be applied to my child's teeth two or four times per year. My child's teeth may look yellow for 24 hours after fluoride application.

PLEASE SELECT \*

- ☐ I give permission for my child to receive fluoride varnish at today's visit.
- ☐ I DO NOT give permission for my child to receive fluoride varnish at today's visit.

Dental X-Rays allow the dentist to diagnose and treat conditions that cannot be detected during a clinical examination. Dental X-Rays detect more than just cavities, for example they are used to evaluate the results of an injury or diagnose a cause of pain. Dental X-Rays are part of a comprehensive examination.

PLEASE SELECT \*

- ☐ I give permission for my child to receive new dental x-rays at today's visit.
- ☐ I DO NOT give permission for my child to receive new dental x-rays at today's visit.

I understand that some dental pathology cannot be diagnosed without the use of dental x-rays. I hereby release Akoya Pediatric Dentistry and staff from responsibility for any oral conditions possibly present of which go undiagnosed as a result of my request that no dental x-rays be taken at today's visit.

### Health History

ARE THERE ANY CHANGES IN REGARDS TO THE MEDICAL/ALLERGIES HISTORY FORM FROM THE LAST VISIT? \*

- ☐ Yes
- ☐ No
